Our Itinerary

"In developing the itinerary for the tour, we carefully studied the type of destinations guests would normally not visit on their own, either because of the remote location or simply because of the difficulty in justifying an entire week there," Audebert states.

DESTINATIONS:

Peru
Chile
Tanzania
Jordan
France

Finland
Bhutan
Thailand
New Zealand
French Polynesia

NOVEMBER 5 - DECEMBER 2, 2022

Our Inspiration

"This is a project dear to our heart – one that comes from 10 years of developing unique themed journeys around the world," says CEO of Art in Voyage, Mikael Audebert.

"We could not have thought of a better time than our 10-year anniversary to bring our world tour vision to life. As such, we are excited to provide guests from around the globe with a chance to check off many items on their bucket list – with just one trip."

An Exclusive World Travel Event

Art in Voyage prioritizes personalized luxury travel and aims to make each journey one-of-a-kind. The Magellan Odyssey is our homage to this ethos and promises to be our most memorable travel event to date. 50 guests will join us onboard our all-business-class, business jet departing from the US, in November 2022.

Together, we will embark on a 28-day World Tour spanning 10 countries and 5 continents.

As our private guest, you will also be staying at breath-taking properties along the way, and we have taken the time to ensure that we can fully cater to all your everyday needs.
